## A BRIEF OVERVIEW

### A river called Pabbar

One of the lesser known Himalayan rivers, Pabbar is a tributary of Yamuna and starts from the glacial Chandra nahan lake. It's a fertile, beautiful, untouched valley with thriving apple orchards. We follow this river to its very source on the trek.

### The Himalayan shepherds

For centuries, the brave shepherds of Himalaya have spent months wondering alone, discovering new routes, making trails and camp sites and ensuring their sheep get to graze in the best meadows. Without them, trekking as it exists currently, wouldn't have.

### Sangla valley of Kinnaur

Tucked away in the Eastern most Himachal Pradesh, bordering Garhwal and Tibet, lies Kinnaur. A land seeped in mythology, where Hinduism and Buddhism meet in a wonderful cultural and architectural fusion. Sangla is the most beautiful valley of the beautiful Kinnaur.

### The trek

Shepherds have crossed over the Buran ghati (4800M) for centuries, but its only recently that trekkers have followed their footsteps. In 5 days of trekking, it encapsulates pretty much everything that Himalayan treks have to offer. And that is what makes it a must-do.
